

SELEKT™

Charbon Fluide Activated Charcoal Liquid

Activated charcoal is a form of carbon which has the property of adsorbing a variety of molecules. An aid in the treatment of minor cases of diarrhoea in calves.

Adsorbent complementary feeding stuff

Activated charcoal binds water and helps to improve faecal consistency.

DIRECTIONS

Shake well, use only while diarrhoea persists.

Does not treat dehydration, seek veterinary advice if the diarrhoea persists or worsens.

Store below 25°C

DOSAGE

3.5mls per kg live weight twice daily until diarrhoea resolves. This provides 1g of charcoal per kg body weight.

ANALYTICAL CONSTITUENTS

Moisture 71%, crude protein 0.1%, crude oil and fats 0.0%, crude fibre 0.03%, crude ash 28.1%, sodium 0.01%
