

SAFETY DATA SHEET

HIPRABOVIS 3

Section 1: Identification of the Substance and Supplier

Product Name: HIPRABOVIS 3

ACVM Registration Number: A07140

Recommended Use: Trivalent inactivated vaccine against respiratory and reproductive conditions caused in cattle by IBR/IPV, PI-3 and BVD

Company Details: AgriHealth NZ Ltd
214 Jervois Road, Herne Bay, Auckland 1011, New Zealand
Phone: +64 9 889 8210 Fax: +64 9 984 9455
Website: www.agrihealth.co.nz

Emergency Telephone: National Poisons Centre: 0800 764 766 (0800 POISON)
Fire Service, Ambulance: Dial 111

Date of Preparation: December 2010

Section 2: Composition / Information on Ingredients

Product Components:

Name	CAS Number	Concentration
Inactivated viral antigens	N/A	
Thiomersal (a preservative)	54-64-8	0.1
Other	N/A	to 1L

Section 3: Hazards Identification

Hazard Classifications: 6.5B - contact sensitiser

Priority and Secondary Identifiers: None required

Risk and Safety Phrases: Repeated exposure may cause skin allergy. Avoid skin contact.

Section 4: First Aid Measures

Necessary First Aid Measures: For advice contact the National Poisons Centre on 0800 POISON (0800 764 766) or a doctor, immediately.

Skin Contact: If skin or hair contact occurs remove contaminated clothing and flush skin and hair with running water. If irritation or symptoms persist, consult a doctor.

Eyes: If splashed in the eyes wash out immediately with water. If wearing contact lenses, remove only after initial rinse and continue rinsing eyes for at least 15 minutes. If irritation occurs or persists, consult a doctor.

Ingestion: If swallowed seek medical attention. DO NOT induce vomiting.

Inhalation: Remove to fresh air.

Workplace Facilities: No special facilities are required.

Required Instructions: Observe good work practices and avoid skin contact. Wash hands and exposed skin before meals and after use. Do not eat or drink while using.

Notes for Medical Personnel: Hiprabovis 3 is an inactivated vaccine for use in animals. It contains the antigens to Parainfluenza-3 (PI-3), Bovine Viral Diarrhoea (BVD) and Infectious Bovine Rhinotracheitis (IBR) / Infectious Pustular Vulvovaginitis (IPV). No systemic reaction is expected in humans. Treat symptomatically.

Section 5: Fire Fighting Measures

Type of Hazard: Non flammable, Non combustible, Non explosive

Fire Hazard Properties: Not applicable

Regulatory Requirements: Not applicable

Extinguishing Media and Methods: Water spray or chemical foam. Treat fire as for the other materials present.

Hazchem Code: Not applicable

Recommended Protective Clothing: Wear full protective clothing and self-contained breathing apparatus (SCBA)

Section 6: Accidental Release Measures

Emergency Procedures: Wear suitable protective clothing. Restrict access to contaminated area. Contain the spill and prevent further dispersion. Retrieve intact containers from site. Place damaged containers into containment devices. Absorb spills with inert material and place in waste containers. Wash the area with water and absorb with further inert material. Collect spilled material and place in sealable containers for subsequent disposal. Avoid contamination of water courses or sewers. Dispose of waste safely.

Section 7: Handling and Storage

Precautions for Safe Handling: Apply with well-maintained and calibrated equipment. Handle with care. Avoid skin contact.

Regulatory Requirements: Not applicable

Handling Practices: Not applicable

Approved Handlers: Not required

Conditions for Safe Storage: Store in the original container in a refrigerator (2 - 8 °C). Protect from light. Keep out of reach of children.

Store Site Requirements: This substance is subject to a requirement for an emergency management plan and secondary containment, whenever it is held in quantities of 1,000L or more. See Hazardous Substances (Emergency Management) Regulations.

Packaging: Packaging as per schedule 3 (Hazardous Substances Packaging Regulations) for quantities > 1L. UN Packaging Group III.

Section 8: Exposure Control / Personal Protection

Workplace Exposure Standards:	None set
Application in the Workplace:	Prevent exposure by using engineering controls, personal protective equipment and work practices that prevent skin contact.
Exposure Standards outside the Workplace:	TELS and EELs have not been set for this substance at this time.
Engineering Controls:	Ensure adequate ventilation.
Personal Protection:	Wear protective gloves during vaccination. Hands and arms should be carefully washed after vaccination.

Section 9: Physical and Chemical Properties

Product Properties:	<u>Formulation Type:</u> Vaccine containing antigens to BVD, PI-3 and IBR/IPV viruses
	<u>Appearance:</u> Pink / red liquid
	<u>pH:</u> 7 - 8.5
	<u>Vapour Pressure:</u> N/A
	<u>Solubility in Water:</u> Formulated as a suspension of antigens in water

Section 10: Stability and Reactivity

Stability of the Substance:	Stable under normal conditions of use and storage
Conditions to Avoid:	No specific conditions to avoid
Material to Avoid:	No specific materials to avoid
Hazardous Decomposition Properties:	No hazardous properties are expected, except when heated to decomposition
Hazardous Polymerisation:	Components are not expected to form hazardous polymers

Section 11: Toxicological Information

May cause mild skin irritation. Repeated exposure may cause skin allergy.

Thiomersal is an organic mercurial used as an antiseptic and as a preservative in many vaccines. Mercury derivatives are frequent contact allergens known to induce skin reactions in humans. Concentrations of thiomersal >0.005% and <0.1% are only identified as sensitizers by ERMANZ. Higher concentrations are also acute toxins, skin and eye corrosive/irritants, potential mutagens and carcinogens, reproductive/developmental toxins and target organ toxins (neurotoxicity).

Section 12: Environmental Information

Potential Environmental Interactions: Not toxic to the environment

Environmental Risk and Safety Phrases: Not classified as dangerous for rail, air or sea transport

Section 13: Disposal Considerations

Disposal Information: Preferably dispose of the product by use. Otherwise dispose of product and packaging at an approved landfill or other approved facility. Burn empty container in an appropriate incinerator, if circumstances such as wind direction permit. Otherwise crush or puncture and bury in a suitable landfill. DO NOT use container for any other purpose.

Section 14: Transport Information

Relevant Information: Not classified as dangerous for rail, air or sea transport

Section 15: Regulatory Information

Regulatory Status:	Registered pursuant to the ACVM Act 1997, No A07140 See www.nzfsa.govt.nz/acvm for registration conditions Approved pursuant to the HSNO Act, Approval code HSR000015 See www.ermanz.govt.nz for approval conditions
HSNO and ACVM Controls:	Refer to section 3 Emergency management plan >1,000L
List Exposure Limits:	None set

Section 16: Other Information

Additional Information:	For product information refer www.agrihealth.co.nz
--------------------------------	--

The SDS summarises, at the date of issue, AgriHealth's best knowledge of the health and safety hazard information. Although reasonable care has been taken in the preparation of this document, AgriHealth Ltd extend no warranties and make no representations as to the accuracy or completeness of the information contained therein, and assume no responsibility regarding the suitability of this information for the user's intended purposes or for the consequence of its use. AgriHealth Ltd urges the recipient of this SDS to study it carefully to become aware of, and understand, the hazards associated with the product as well as determine the suitability of the information for the intended purpose.
